

## GT Notify System

MODEL: GT-1688

LAST UPDATE ON 01 NOVEMBER 2017

GT Notify system is professional SMS Notification system can be used by many industries, like retail, real-estate, finance, f&b, clinic, spa, gym, club, hotel, and travel.

### **All-in-One design**

With its all-in-one design, just plug the power and network cable into the system, with simple IP address configuration, the system is ready to work.

### **SIM Card Based**

GT Notify use the standard sim card to send out and receive SMS, make it very flexible to be used around the world.

### **Smart Algorithm (For GT 2688)**

With Dual SIM Card model GT-2688, user can send SMS based on the phone number prefix, it will save the communication cost. It can also rotate the SIM card to load balance and speed up the SMS delivery.

### **Web Interface**

With the easy to use web interface, user do not need to install any software on their computer and can operate the system just from their web browser.

### **Rich Features for Application integration**

SMS API (HTTP), Email to SMS, SMS to Email, Web Hook, ODBC database connection. All these features make the GT Notify SMS gateway easy to work with various applications.
